All of our children, even the youngest students, understand the importance of helping other children. They have been a large part of Miriam's Kids Foundation raising over \$500,000.00 in the last 4 years.

We encourage all children to get sponsored to attend the dance-a-thon. Part of our mission is healthy children helping sick children. This is a great way for our children to learn to give back. Enclosed is a letter to help them keep track of their money raised and explain where their money will be going.
